THE FUTURE OF AIRPORT INNOVATION STARTS HERE

Held under the patronage of H.H. Sheikh Ahmed bin Saeed Al Maktoum, President of the Dubai Civil Aviation, Chairman of Dubai Airports and Chairman and Chief Executive of Emirates Airlines and Group, Airport Show returns for its 23rd successful edition from 14-16 May 2024 at Sheikh Saeed Halls 1-2, Dubai World Trade Centre. See attached patronage letter for your reference.

Within the context of increasing passenger traffic in regional airports, Airport Show continues to offer a premier platform to connect with leading figures across the industry. In 2024, we'll continue to facilitate future airport innovations and attracting sustainable solutions from leading suppliers and manufacturers of airport products and services from around the world.

Airport Show, through its Business Connect programme, attracts business and government leaders, service providers, tech innovators, academics and buyers from 30+ countries, all determined to remain at the forefront of this rapidly evolving industry. This industry-wide sense of enhancing the passenger experience in airport innovation, security, air traffic management and reducing the industry's carbon footprint will be even more relevant at the 2024 event, under the theme of 'Together in Innovating Sustainable Airports of the Future', as we look for better solutions for creating the next generation of sustainable airport infrastructure and services.

The Middle East, Africa and South Asia's leading airport event will also host collocated events ATC Forum, Airport Security Middle East, the Global Airport Leaders' Forum and the Women in Aviation Middle East Conference and Awards which together are expected to welcome over 150 exhibitors and 6,000 aviation professionals from 30+ countries.

The Airport Show presents a tremendous opportunity for stakeholders within the aviation ecosystem to convene, collaborate, and solidify a roadmap for an innovation and sustainability-driven future.

H.H. Sheikh Ahmed bin Saeed Al Maktoum

President of Dubai Civil Aviation Authority,
Chairman of Dubai Airports,
Chairman and Chief Executive of
Emirates Airline and Group

In its 23rd edition, you can expect the most recent products and technologies from major sectors of the airport industry, an unparalleled networking opportunity, and a excellent lineup of internationally recognised speakers.

Take a deeper look at everything the Airport Show has to offer:

airportshow

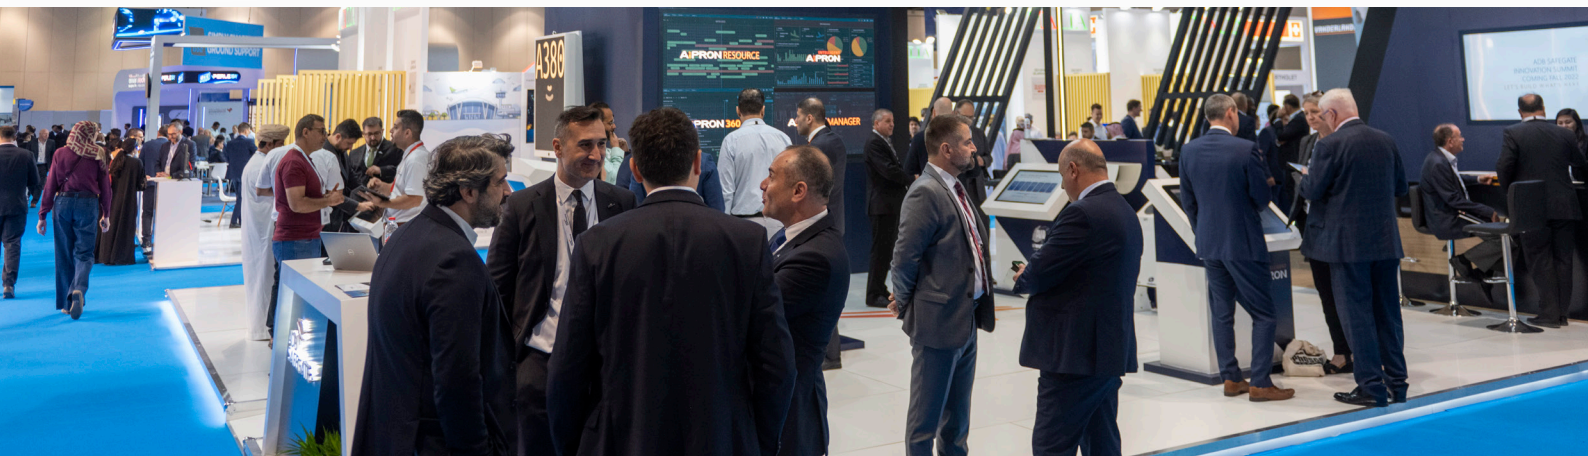

An excellent platform where aviation authorities, companies, and professionals from all over the world can engage with worldwide experts and leaders to improve the global airport experience.

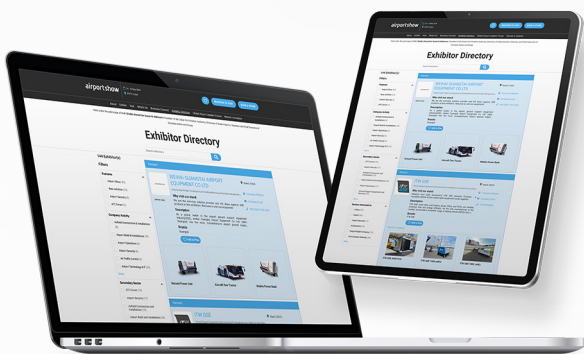

A dedicated event focusing on the best way to successfully secure airports from diverse threats while minimising disruptions to operations.

A venue for new technical advancements aimed at creating a more efficient and sustainable aviation management environment.
